## About Us

The mission of Community Interactions Day Program/Resource Center is to provide integrated community-based services which respects an individual's dignity, and helps them to achieve the ultimate goal of being a valued member of their community.

Our vision is to create person-centered programs that embrace all aspects of an individual's life. This holistic approach utilizes all available resources to help self-actualize an individual's potential. The person-centered approach concentrates on an individual's strengths and a continuum of learning that will focus on skill building, independence, recreation, volunteering and supportive employment.

# COMMUNITY OUTREACH

Outreach and Volunteering is our way to provide community involvement, employment, partnerships and new relationships.

As part of our Community Outreach Program here at the CI PA Day Program, our individuals volunteer at local Wawa Stores and Manna in Philadelphia to deliver meals to residents and local shelters. In addition we have a group that volunteers at City Team in Chester assisting with

various duties.

Our Community Outreach continues to grow and is a great way for our program to give back to our community! This is just one of the many ways the individuals and staff at the Day Program have been getting out into the community and lending a hand to those in need.

We are always looking for new Community Outreach Opportunities and would love to hear from you.

Please contact the PA Day Program at 610.544.0200 for more information.

*Pictured here: Charles wrapping silverware at City Team and Mark and Patrick getting ready to deliver meals.*

## Congratulations

Congratulations to Faith Browne on his new role as Lead Staff of the In Home and Community Supports Program (HBW) and Supported Employment Program. Faith transitioned to this role in November 2019 and has just received his ACRE certification. This certification will allow him to provide supports to folks when seeking employment or when working at the job site.

## No Call/No Show

Please call us if you will not be attending the Day Program on your scheduled day.

For your convenience, you can leave a voice mail before or after hours at 610.544.0200.

This is a great help to us and we thank you!

## NOTE!

The bulletin board in our large activity room is now designated for volunteer opportunities and we encourage our staff to check it regularly as you plan your schedules. **Remember, it is not about doing things for people or just getting them out into the community...it's about doing things that matter!!!**

## ATTENTION all Parents/Caregivers!!!

*Please Note: It is your responsibility to cancel CCT rides once they are scheduled. Also, any concerns regarding CCT please contact them directly at (215) 580-3581. For more information on CCT Services please go to [www.septa.org/service/cct/](http://www.septa.org/service/cct/)*

## We ♥ our Volunteers.

Community Interactions values its volunteers. They're one of our greatest resources in furthering the CI mission: Your Life...Your Choice...Our Mission. CI is always in need of people who want to invest their time and energy in a variety of areas to improve the lives of the individuals we support. Follow the link below to learn more or contact Barbara

## ACTIVITIES OFFERED INSIDE THE PA DAY PROGRAM

In addition to working and exploring out in the community, we also offer a number of in-house activities at the PA Day Program which allows us to take advantage of our beautiful facility. **Call us Today to schedule a tour!!!**

### COMPUTER CLASS

Our state of the art computer lab is always open to the individuals attending the day program and, after a productive

day in the community, they are often found there viewing YouTube videos or chilling out to music.

Each week on Wednesday mornings, a structured computer activity is offered, giving our folks an opportunity to learn new skills and participate in the creation of this newsletter.

Individuals are taught to use the applications in the Microsoft Office Suite including Word, Excel, Powerpoint and Publisher. They create essays for the newsletter, work with photos and clip art, use Google Chrome to conduct research on the internet (including recipes for our cooking activities) and much more.

*Pictured here are Clarence, Mark, John M. and DeBerry, working hard on their essays.*

The art class meets every Thursday inside the Day Program and each week a different activity is offered. Our folks work independently or in teams to create the beautiful artwork on display throughout the building.

Lately we have been working on sprucing up the place by decorating the ceiling tiles. Here are some pictures of our folks working as a team and having fun with pastels. We think that social media icons will be appropriate in the computer lab.

*Pictured here are Delia, Bobby, Lonnie, Deanna and John working together on the various social media icons. Great Job !!!*
